

Notice

Intellectual Property Rights (IPR) Cell

Objectives of IPR Cell

The prime aims and objectives of IPR Cell are to:

- I. To promote, preserve, encourage and aid scientific investigation and research;
- II. To provide an organizational structure and procedures through which inventions and discoveries made in the course of the research may be made readily available to the public.
- III. To establish standards for determining the rights and obligations of the college, creators of intellectual property (e.g., inventors, developers, authors) and their sponsors with respect to inventions, discoveries and works created at the college;
- IV. To encourage, assist and provide mutually beneficial rewards to the college and members of the college.
- V. To ensure compliance with applicable laws and regulations and enable the college to secure sponsored research funding at all levels of research;
- VI. To supervise the activities related to the Intellectual Property of the college like evaluation and filling of patents, copyrights and design; and
- VII. To enhance the reputation of the college as an academic research institution and a member of society by pursuing the highest ideals of scholarship and teaching and by conferring the benefits of that scholarship and teaching on the college community and society.

Constitution of the Cell
