

GOVERNMENT COLLEGE FOR WOMEN, PALI (REWARI)

ANNUAL REPORT SESSION 2021-22

Message

It gives me immense pleasure to bring out College Annual Report for the session 2021-22. The college Annual Report is a very important document which acts as a repository of all the activities of an institute and showcases its achievements and capabilities. Along with this function as an evidence of what has been done and where we lack, the Annual Report, implicitly, is also about where the institute seeks to stand in the coming future. It is this combination of the present and the future which makes Annual report a vibrant document and an invaluable part of all academic lives.

Government College for Women, Pali, through situated in the rural hinterland and functioning with a small strength of nearly 454 students, has a lot more to it than mere numbers and location. The college is part and parcel of the rising aspirations of rural girls to achieve education as part of their efforts to rise beyond their humble beginnings. They might not have received school education in costly private schools and their parents may not be rich enough to send them to far-off universities, but their aims and determinations to rise in life are not humble. The students of this college participate enthusiastically in all the activities of the college as the Annual Report makes evident. The passion, the determination and the grit to go beyond the shackles of the poor beginnings and present obstacles makes these students fair example of what we can achieve in our lives through commitment and perseverance .

My congratulations to all the students, staff members and particularly editorial

board of Annual Report (2021-22) to bring out this valuable document and become part of the journey of this great institute.

Warm regards Sincerely
Dr. Karan Singh

Vision and Mission of Internal Quality Assurance Cell

Internal Quality Assurance Cell, in fact, is conceived as a mechanism to build and ensure a quality culture at the institutional level. The internal quality assurance mechanism of the institution is called “Internal Quality Assurance Cell (IQAC). The cell undertook the following functions in the college during the session 2021- 22:

- It facilitated the creation of a learner-centric environment conducive for quality education. It encouraged faculty members to adopt the required knowledge and technology for participatory teaching and learning process;
- The cell arranged for feedback responses from students, parents on quality related institutional processes
- It organised intra institutional workshops, seminars on quality related themes.
- It Documented various programmes/activities of the College, leading to quality improvement.

Works done under College Development Cell

The College Development Council, the apex body of the college which plans development activities of the institution, has served a great role in the maintenance and growth of the college in 2021 -22 also. The following works were undertaken by it:

- The minor repairs and renovations in the college were carried out by College Development Cell during 2021 -22.
- The pending work on water purifier plant was undertaken by CDC with the support of PWD.
- New furniture like benches, Chairs, Tables etc. was purchased for smooth functioning of college work.
- In each classroom, ACs were installed for the betterment of the students.
- Proper attention was given towards campus beautification and cleanliness.
- The auditorium was equipped with required instruments and necessary accessories.
- Smart classrooms were made functional for achieving the purpose of digitalization of education.
- The English language lab was established for the students to assist them in Learning Process.
